It's time for smart living

Bed or Commanding Center?

TIS smart home manufactory has engineered a product to make your bed a commanding center. All it takes is a few touch; with **Luna Bedside Panel** have your room fully functional. This device help controlling temperature, light and other systems, creating a pleasant and peaceful bedroom atmosphere.

Having a qualified in-built thermostat, Luna Bedside enables controlling heating and cooling devices efficiently. Also, floor heating might be a delighting option for cold rainy days.

This device is capable of managing lights; no matter if it is all the lights in room or that lovely reading lamp beside your bed which your designer friend gifted you, Luna Bedside can turn OFF/On every light for you.

8 scenarios are configurable in Luna Bedside's panel. Imagine it is your bed time. What would be more relaxing than an enough low breeze of AC, a dim light, and a tranquil song. Or if you are one of those who need that extra push before starting the day, Luna Bedside will be your best assistant. Curtains would be gathered, the coffee maker would be on, and with the sound of your favorite morning song you are ready to start a wonderful day.

Luna Bedside is also a practical smart solution for hotel bedrooms as its wide range of light and shading control help setting the tone as such that your guests feel welcome and enjoy their luxurious stay at your hotel.

You'll know the
beyond-its-tag- value
when you experience
Luna Bedside's assistance.
See for yourself.

Luna Bedside has a stylish Black glass design with an 12 button touch screen that suits your bedroom aesthetic. Each button has an attractive and minimal icon which is quite simple to work with. Also, the button color is customizable in a 265 color range. Perform whatever you want with Luna Bedside; each button can perform two sets of orders if double clicked.
